Larry Hebert
Washington State Patrol
Breath Test Program
811 East Roanoke
Seattle, WA 98102

Dear Director Hebert:

ANAB has approved the continuation of accreditation of the Washington State Patrol Breath Test Program, based upon the results of the surveillance activity, conducted by Lead Assessor Mike Kellett.

Enclosed with this correspondence you will find a copy of the surveillance report. Continuation of accreditation does not change the expiration date of accreditation. Rather, this action is an annual, formal acknowledgement that a laboratory continues to operate in satisfactory conformance with accreditation requirements.

Congratulations for maintaining an on-going, acceptable level of conformance with the applicable accreditation requirements.

Sincerely,

A handwritten signature in blue ink that reads "Melissa Kennedy".
